

KEEP THIS PRIVATE

Hey, it's Dave Miller here...

It's critical you keep this msg private!

The limit of ~~50~~ 38 you're about to learn about is very real.
So the fewer who know... The better!

Because once this is gone...

...it's gone forever!

Take betting more seriously than most of your friends and people you know?

Perfect! This message is 100% for you.

OR

Do you typically bet for "beer money"?

If so no worries but this offer is probably NOT for you!

Still with me? Great!

Here's the deal, for the first time ever you can SECURE a 1-year pass that includes everything...

...I'm talking, a pass that entitles you to every single pick, nothing held back!

That's right, you get every T3 System and APEX System pick. Plus, picks from any future systems created!

Trust me, if you're serious about betting then you **WANT THIS!**

It's called...

Here's EXACTLY what you receive:

But wait, it gets better... A BONUS!

As an added bonus, you'll get access to the **\$25K Takedown Program** as well! (A \$997 Value)

That's right, you'll get to participate in the \$25K Take down challenge.

It's a challenge where you can watch as I take a modest \$2K acct to over \$25K.

- See every bet!
- See my actual betting account!
- Bet the picks for yourself!

This is the 3rd time I've done the challenge... And for the record we went well beyond 25K 😊

THE CATCH <--- The fine print

This BIGGEST & BEST package I have ever offered.

It makes me a tad bit nervous because of how much influence myself and my clients have on the betting markets.

It's for that reason, I am only releasing ~~50~~ 38 APEX Elite packages! (12 packages are already gone!)

Still with me? Still interested?

Your #1 Fan,

Dave Miller

P.S. If you're current or past 25K, APEX, or VIP client please reply to this text and Steph will get you hooked up!

P.P.S. Consider this.

This message is going out to over 61,479 bettors just like you.

There is no doubt... This will sell out. I want to make one thing SUPER clear.

Once the ~~50~~ 38 APEX Elite packages are gone... That's it.

100% NO EXCEPTIONS!

If you think that's harsh... I'm sorry, I just cannot risk the integrity of my systems... And the cap is 50.

So if you're interested.
